

Subpart B—Project Management Oversight Services

§ 633.11 Covered projects.

The Administrator may contract for project management oversight services when the following two conditions apply:

(a) The recipient is using funds made available under section 3, 9, or 18 of the Federal Mass Transit Act of 1964, as amended; 23 U.S.C. 103(e)(4); or section 14(b) of the National Capital Transportation Amendments of 1979; and

(b) The project is a “major capital project”.

§ 633.13 Initiation of PMO services.

PMO services will be initiated as soon as it is practicable, once the agency determines this part applies. In most cases, this means that PMO will begin during the preliminary engineering phase of the project. However, consistent with other provisions in this part, the Administrator may determine that a project is a “major capital project” at any point during its implementation. Should this occur, PMO will begin as soon as practicable after this agency determination.

§ 633.15 Access to information.

A recipient of FTA funds for a major capital project shall provide the Administrator and the PMO contractor chosen under this part access to its records and construction sites, as reasonably may be required.

§ 633.17 PMO contractor eligibility.

(a) Any person or entity may provide project management oversight services in connection with a major capital project, with the following exceptions:

(1) An entity may not provide PMO services for its own project; and

(2) An entity may not provide PMO services for a project if there exists a conflict of interest.

(b) In choosing private sector persons or entities to provide project management oversight services, FTA uses the procurement requirements in the government-wide procurement regulations, found at 48 CFR CH I.

§ 633.19 Financing the PMO program.

(a) FTA is authorized to expend up to ½ of 1 percent of the funds made available each fiscal year under sections 3, 9, or 18 of the FT Act, 23 U.S.C. 103(e)(4), or section 14(b) of the National Capital Transportation Amendments of 1979 (93 Stat. 1320) to contract with any person or entity to provide a project management oversight service in connection with a major capital project as defined in this part.

(b) A contract entered into between FTA and a person or entity for project management oversight services under this part will provide for the payment by FTA of 100 percent of the cost of carrying out the contract.

Subpart C—Project Management Plans

§ 633.21 Basic requirement.

(a) If a project meets the definition of major capital project, the recipient shall submit a project management plan prepared in accordance with § 633.25 of this part, as a condition of Federal financial assistance. As a general rule, the PMP must be submitted during the grant review process and is part of FTA’s grant application review. This section applies if:

(1) The project fails under one of the automatic major capital investment project categories (§ 633.5(1) or (2) of this part); or

(2) FTA makes a determination that a project is a major capital project, consistent with the definition of major capital project in § 633.5. This determination normally will be made during the grant review process. However, FTA may make such determination after grant approval.

(b)(1) FTA will notify the recipient when it must submit the PMP. Normally, FTA will notify the recipient sometime during the grant review process. If FTA determines the project is major under its discretionary authority after the grant has been approved, FTA will inform the recipient of its determination as soon as possible.
